DETAILED ACTION

1. This Office Action is in response to the Applicants argument filed on April 21, 2009. New claim 39 has been added. Claims 1, 3, 5-8, 24-39 are pending.

Response to Arguments

2. Applicant's arguments filed 4/21/09 have been fully considered and are persuasive. The rejection of claims 1, 3, 5-8, 24-38 has been withdrawn. *Note: Please change the status of claims 18-23 from (Withdrawn) to (Cancelled).*

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 7-8 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 7 recites the limitation "the public key" in line 8. There is insufficient antecedent basis for this limitation in the claim.

5. Claim 8 is also rejected for being dependent on a rejected claim.

6. Claim 32 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. A system claim needs a structural element and cannot be of consisting of only a language that could be implemented.

Claim Rejections - 35 USC § 101

7. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

8. Claim 32 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 32 is a system claim and consists solely of language that is implemented with only software. Claim 32 does not provide any functional interrelationship to any software and hardware structural components to provide certain function that is processed by a computer. Therefore, the claim is not statutory.

Allowable Subject Matter

9. Claims 1, 3, 5-6, 24-31 and 33-39 are allowed.
10. The following is a statement of reasons for the indication of allowable subject matter: None of the prior art on record either taken singularly or in combination teaches ***"encrypting the session ticket ID and a public key into an assertion; intercepting at the agent a second request to grant the web service customer access to the second web service, the second request comprising the assertion and a signature associated with a private key; and if the private key matches the public key in the assertion, granting at the agent the second request without reauthenticating or reauthorizing the web service customer"*** including all the other limitations recited in claim 1.
11. Independent claim 26 also includes similar limitations is therefore, is also allowed for the same reason set forth above.

12. Dependent claims 3, 5-6, 24-25, 27-31, 33-39 are also allowed.
